

Please return original form to:

Education Support Centre Administration Office Bernoulliborg, room 141 Nijenborgh 9 9747 AG GRONINGEN

Please note:

- You can use Adobe Reader to fill in the form.
- The signature of the first examiner must be an original on the printed form.
- The final grade will only be registered in Progress once the report is uploaded in the Repository

MASTER RESEARCH ASSESSMENT FORM

Biology, Ecology & Evolution, Marine Biology, Molecular Biology & Biotechnology

PART 1: TO BE FILLED IN BY THE FIRST EXAMINER

Student number				
Name				
Programme				
Track/specialisation				
Title project				
Date of thesis submission				
Research group				
Name 1st examiner				
Name 2 nd assessor				
		_		
Automatic calculatio (0.1 x C)+ (0.4 x	on of the grade : (0.3 x A) + (0.2 x B) + D)=			
	pass if all partial grades are graded* ≥5.5 ades is <5.5 please note a F(ail) as final grade)			
Final grade Master's project: Please round grade to the nearest 0.5				
Note: 5.5 is not allowed				
Number of ECTS (whole number)				
In case a the final grad	project is graded according to the assessment framework handbook (Staff Portal). e is <6.0 and/or one or more partial grade(s) is <5.5, the student is offered a which a second assessment will take place.			

$A.\ Scientific\ quality\ of\ Research\ (theoretical\ skills)$

	Unsatisfactory	Satisfactory	More than satisfactory	Good	Excellent
Definition of hypothesis					
Research approach or design concept					
Critical analysis and interpretation of results					
Placing research in scientific context					
Familiar with pertinent literature					
Ability to improve after feedback					
Grade (A) default 30%					
Student's strengths:					
Future points of improvement					

B. Management of Research (practical work)

	Unsatisfactory	Satisfactory	More than satisfactory	Good	Excellent
Commitment and planning					
Quality of experimental work					
Initiative / independence					
Self-critical attitude in the collection of data					
Quality and accessibility of data (data management)					
Social skills (interaction with colleagues and supervisor)					
Grade (B) default 20%					
Student's strengths:					
Future points of improvement					

Name: Student number:

C. Final presentation

Presentation of data Presentation of conclusions Structure of report Argumentation skills Use of references Writing/expression skills Grade (D) default 40% Student's strengths: Future points of improvement:	sfactory	Satisfactory	More than satisfactory	Good	Excellent
Technical aspects/presentation materials Discussion skills/ability to answer questions Critical analysis and interpretation of results Clarity of expression/expression skills Grade (C) default 10% Student's strengths: Future points of improvement Unsatis Presentation of data Presentation of conclusions Structure of report Argumentation skills Use of references Writing/expression skills Grade (D) default 40% Student's strengths: Future points of improvement:	sfactory	Satisfactory		Good	Excellent
Discussion skills/ability to answer questions Critical analysis and interpretation of results Clarity of expression/expression skills Grade (C) default 10% Student's strengths: Future points of improvement Unsatistical analysis and interpretation of skills Grade (C) default 10% Student's strengths: Unsatistical analysis and interpretation of skills Urse of report Argumentation of data Urse of references Writing/expression skills Grade (D) default 40% Student's strengths: Future points of improvement:	sfactory	Satisfactory		Good	Excellent
Questions Critical analysis and interpretation of results Clarity of expression/expression skills Grade (C) default 10% Student's strengths: Future points of improvement Unsatistical presentation of data Presentation of conclusions Structure of report Argumentation skills Use of references Writing/expression skills Grade (D) default 40% Student's strengths: Future points of improvement:	sfactory	Satisfactory		Good	Excellent

PART 2: TO BE FILLED IN BY THE 2ND ASSESSOR

Justification and final remarks on ssessment:

Rik has worked meticuously and with a lot of commitment. He completed the experimental work well. The image analysis part he experienced as very difficult and that also started therefore very slowly. In the end his dataset is very interesting and his conclusions are fine. His presentation was rather clear although in the discussion he struggled a bit in answering the questions. Overall well done and 'more than sufficient'
